

# APPLICATION GUIDE

## "INDUSTRIAL" SINGLE USE DEVICES – EO/GAMMA IRRADIATION

Application	Product	Key Features	
		Seal Strength	Peel Performance
Direct seal top web	Sterikraft D		
Direct seal top web	Sterikraft G		
Direct seal top web	Sterikraft IDS		
Direct seal top web	Sterikraft PeelClean EO		
Grid lacquer heat seal coating	Sterikraft CPS	Purpose designed medical paper, offering high coating efficiency and excellent clean peel properties	
Grid lacquer heat seal coating	Sterikraft CP HP	High permeability and higher seal strength variant of Sterikraft CPS	
Heat & cold seal coating	Sterikraft S Cal	High strength medical paper, calendered for enhanced coating efficiency	
Heat & cold seal coating	Sterikraft LWT	Lightweight (53 g/m <sup>2</sup> ) medical paper, offering high cost efficiency	
Heat & cold seal coating	Sterikraft HWT	Heavyweight (100 g/m <sup>2</sup> ) medical paper, offering greater puncture resistance	
Cold seal coating	Medikraft	High cleanliness MG kraft paper	
PE Extrusion coating & Surgical glove wrap	Medikraft	High cleanliness MG kraft paper	
PE Extrusion coating & Surgical glove wrap	Medikraft Light	Lightweight high cleanliness MG kraft paper	

# APPLICATION GUIDE

## "HOSPITAL" REUSABLE DEVICES – STEAM STERILISATION

Application	Product	Key Features		
		Typical Porosity (ml/min)	Seal Strength	Peel Performance
Film fronted pouches & rolls	Sterikraft 2010	525		
Film fronted pouches & rolls	Sterikraft 2011	630		
Film fronted pouches & rolls	Sterikraft PeelClean S	1000		
Heat-seal bags	Sterikraft 2006	Optimised medical paper for high speed bag machine conversion		
Creped sterilisation wrap/drape	Supadrape	Reinforced high performance crepe, with IPA repellency		
Creped sterilisation wrap	Supawrap	Enhanced softness high water repellency wrapping crepe		
Creped & plain sterilisation wrap	Steriwrap 2004 & 2005	High water repellency wrapping crepe & plain paper
