

EX Inkjet Roll Service

Exactly what you need.

EX intended for inkjet. Improved lead times.
Exceptional performance.

Expect the quality and print consistency
you need for your production inkjet web presses,
faster and more reliably.

EX is a comprehensive portfolio of intended-for-inkjet rolls for printers that operate production inkjet web presses.^

Billerud offers a broad product array with exceptional optics, surface smoothness and consistency, paired with excellent roll condition for reliable runnability. Our distinguished brands, like Sterling® and Influence®, have been trusted for stellar on-press performance and quality for generations. And now embraced by inkjet press manufacturers and customers alike.

With popular widths warehoused to improve supply chain lead times plus custom widths available from manufacturing, EX offers real-time solutions for inkjet advancement.

ROLL SIZES:

- 18” and 20” widths stocked
- Custom widths available via manufacturing. Subject to approval.
- Standard with 50” OD and 3” cores

Roll labels for items within the EX Inkjet Roll Service program will be distinguished by an EX suffix.

To learn more about rolls within this program please contact your Billerud Customer Service Representative at 800 258 8852.

^In all printing situations, the quality requirements and productivity expectations vary based upon the complexity of the end-use applications. While many digital press manufacturers recommend certain offset papers, customers should verify product compatibility with the digital press manufacturer, test substrates prior to use and consider the printing demands of the specific job.

COATED INKJET WEB

Sterling® Ultra EX

NARROW ROLLS. READY TO RUN.

Sterling, a trusted brand for generations, has become the go-to coated paper for an expanding inkjet market for its positive on-press performance and print quality.
