

Narrow Roll Service

# Exactly what you need.

Narrow-width rolls. Improved lead times.  
Exceptional performance.

---

Expect the quality and print consistency  
you need for your production inkjet web presses,  
faster and more reliably.

Introducing narrow-width rolls of our most popular Sterling® items, warehoused to improve supply chain lead times for printers with production inkjet web presses designed to run coated papers. ^

Sterling offers exceptional optics, surface smoothness and consistency, paired with excellent roll condition for reliable runnability. A trusted brand for generations, Sterling is OEM recognized for its positive on-press performance and print quality.

The Sterling legacy continues. Building on the best of where we've been and the excitement of where we're going.

**ROLL SIZES:**

- 18" and 20" widths
- 50" OD
- 3" cores
- Single packed

Roll labels for items within the Narrow Roll Service program will be distinguished by an EX suffix.

Other roll sizes and grades remain available through normal ordering methods.

To learn more about 18" and 20" width rolls within this program please contact your Billerud Customer Service Representative at 800 258 8852.

393285			20	50			

^In all printing situations, the quality requirements and productivity expectations vary based upon the complexity of the end-use applications. While many OEM presses recommend coated offset paper, customers should verify product compatibility with the OEM, test substrates prior to use and consider the printing demands of the specific job.
