

Restated figures according to new reporting structure

As a consequence of a reorganization, BillerudKorsnäs changed its reporting structure as of 1 October 2020. To enable comparisons in coming financial reports, BillerudKorsnäs presents recalculated figures are presented for all quarters 2019 and the first three quarters 2020.

BillerudKorsnäs' financial performance is reviewed in three operating segments: Product area Board, Product area Paper as well as Solutions and other.

- Product area Board includes sales and costs related to liquid packaging board, cartonboard and containerboard.
- Product area Paper includes sales and costs related to sack paper and kraft paper, which now also contains Fibreform®. In addition, product area Paper includes surplus pulp that is not used in the own production.
- Solutions and other includes sales and costs related to Managed Packaging. It also includes wood supply, Scandfibre Logistics AB, rental operations, dormant companies, Group-wide functions, Group eliminations, profit/loss from participation in associated companies, items affecting comparability, results from hedging of the Group's net currency flows and revaluation of accounts receivables.

Restated figures according to the new reporting structure for the past seven quarters are available on BillerudKorsnäs' website and as an attachment to this press release.
